

1/8" Steel Electrodes for Resistance Soldering

Model: 10594

Product Overview

A resistance soldering system is only as good as your 'Point of Contact'. American Beauty incorporates only the highest quality electrodes and elements into our hand pieces. All carbon and stainless steel electrodes are copper-clad for improved current flow, except for Models 10565, 10566, 105134 & 105159 whose short lengths don't require such measures. Inferior quality electrodes and elements will affect overall system performance and could void applicable warranties.

Electrodes come in packages of SIX.

Features and Benefits

Copper Coated, Stainless Steel

Ground at both ends

Six electrodes per Package

Technical Specifications

Tapered Distance of Working Area	.25 in / 0.64 cm
Width of Working Area	.0625 in / 0.16 cm
Tip Configuration	Conical
Tip Diameter	.125 in
Tip Length	3 in / 7.62 cm
Package Weight	.05 lbs / 0.02 kg

Country of Origin	CN
Harmonization Code:	8515.11.0000
RoHS Compliant	Yes
IEC 60335-1, Edition 5.1, 2013-12	Yes
WEEE Compliant	Yes
CE Certified	Yes
Warranty Policy	Details
User Manual	User Manual
