## REPLACEMENT THERMOSTAT

American Beauty Solder pots are constructed to endure the worst that you can throw at them. A full array of replacement items are available so that you can extend the life of your solder pot by performing routine maintenance versus purchasing a whole new unit. American Beauty solder pots regulate the temperature of their solder bath through an efficient and effective bi-metal thermostat. Through simplicity of design, we have virtually eliminated the need to ever throw out a solder pot. Follow this link to view our Solder Pot Wiring Schematic

### TECHNICAL SPECIFICATIONS

|                             |                             |
|-----------------------------|-----------------------------|
| Available in a 220-240 VAC? | Yes, available upon request |
| Product Width               | 2.50 in / 6.35 cm           |
| Product Height              | 4.125 in / 10.48 cm         |
| Package Weight              | .15 lbs / 0.07 kg           |
| Country of Origin           | US                          |
| Harmonization Code:         | 9032.10.0000                |
| RoHS Compliant              | Yes                         |
| WEEE Compliant              | Yes                         |
| Warranty Policy             | Details                     |
| User Manual                 | Instructions                |
| Product Lgth                | 3.00                        |

### FEATURES AND BENEFITS

Effective in controlling general temperature of American Beauty One Pound and Mid-Capacity solder pots.

Simple bi-metal design keeps pot running smoothly.

### END-OF-LIFE INSTRUCTIONS

In an effort to reduce waste and comply with WEEE directive, please do not dispose of product. All American Beauty Tools are serviceable and can be repaired and/or replaced. Please contact manufacturer to make arrangements.
